# The 304F Series Ball Valve

The 304F series ball valve incorporates several innovative design features for improved process performance. The uniform bore diameter improves flow rates and minimizes pressure drop through the valve. The dual pattern ISO 5211 mount pad facilitates direct mounting of pneumatic and electric actuators. In combination with our high-cycle live-loaded stem packing system, the 304F series ball valve provides an ideal choice for all your automation requirements.

## Standard Features and Benefits

- **Dual Pattern ISO 5211 Direct Mount Pad**  
No bracket or drive coupling needed for automation  
Eliminates exposed moving parts for safer work environment  
Direct drive eliminates play and improves actuator positioning  
Dual pattern pad fits a wide range of actuator sizes
- **High-Cycle, Live-Loaded Stem Packing**  
Ensures tight stem seal and extends service life
- **O-ring Stem Bearing**  
Maintains stem alignment  
Reduces packing side-loading and wear  
Enhances stem seal
- **Blow-Out-Proof Stem**  
Stem is bottom loaded to prevent removal when valve is in service
- **3-Piece Full Port Design**  
Improves flow resulting in increased process efficiencies and easier to repair
- **Locking Device**  
Enables plant personnel to secure valve in open or closed position when manually operated
- **End Cap Alignment Step**  
Ensures easy and proper alignment between mating parts
- **Investment Cast**  
Improves dimensional control and reduces porosity
- **Anti-Static Stem**
- **Standard Valve Suitable for 150 psi Saturated Steam**
- **Castings Meet NACE MR0175/ISO 15156**

## Options

- **Material Test Reports Available Upon Request**
- **Stem Extensions**
- **Oval Handle**
- **Spring Return Handle**
- **Air Safety Exhaust Valve Design**

## Operating Conditions

- Temperature Range (RTFE):  
-40°F ~ 450°F
- Maximum Pressure (RTFE):  
1000 PSI WOG (1/4" - 2")  
800 PSI WOG (2 1/2" - 4")

## Specifications

- All valves shell and seat tested to ANSI/ASME B16.34 and API 598
- All materials comply with applicable ASTM material specifications
- End connections:  
All to ASME B16.34  
NPT to ASME B1.20.1  
Socket Weld to ASME B16.11  
Butt Weld to ASME B16.25  
Flanges to ASME B16.5
