

## VARINLINE® Sampling Valve TSVN / TSVU

TSV = VARINLINE Sampling Valve  
(without VARINLINE® Access Unit)

Typ / Type

N

U

Process connection

N = For housings from 1,5"OD to 6" OD or 2"IPS to 6" IPS  
or Flange connection Type T50/40 or Type U50/40

F = For housings size 1" OD, or Flange Connection Type T 25 or Type U 25

Sockets

1 = 1 socket

2 = 2 sockets

Aseptic

K = without

M = Stainless steel bellow

Feedback signals

0 = without

1 = 1 proximity switch in the lantern

2 = 2 proximity switches in the lantern

6 = prepared for 1proximity switch in the lantern

7 = prepared for 2 proximity switches in the lantern

Interface module

B = 24 V DC, 3-wire, PNP

F = 24 V DC, 2-wire (L+)

E = Namur

Sealing material

1 = EPDM

2 = FKM

Certificates

K = without

W = Factory test certificate EN10204-2.2

Documentation

D = German

E = English

1 = 1 copy

n = Number of documents
